

ALI ULLAH MIYA MANSUR

PROFESSION (WELDER)

EDUCATION

SLC Passed

PROFILE

Energetic, team player, able to communicate.

Gender: Male

WORK EXPERIENCE

Worked as a "Welder" for 5 years in Nepal.

Welder Responsibilities & Duties

- **Fabrication and Assembly:** Joining metal components, parts, and structures using specialized machinery (e.g., torches, plasma cutters) to create finished products.
- **Blueprint Interpretation:**
 - Reading and analyzing blueprints, engineering drawings, and sketches to determine layout, material, and welding requirements
- **Equipment Setup and Maintenance:** Selecting proper welding methods, setting machine controls, and performing routine maintenance to prevent overheating or malfunction.
- **Quality Control and Inspection:** Examining completed welds for defects, proper penetration, and compliance with specifications or codes.
- **Safety Compliance:** Adhering to strict safety regulations, including wearing personal protective equipment (PPE), to prevent injuries.
- **Material Preparation:** Cleaning, grinding, and cutting metal surfaces to remove grease, rust, or scale before welding
